HS-10

Portable Acoustic Hailing Device

The HyperSpike® HS-10 is a revolutionary self-contained, portable acoustic hailing device. Easily accessible, the built-in high frequency alert tone penetrates high background noise environments and is readily activated with the push of a button. Exceeding traditional megaphones and common hailing devices, the HS-10 delivers clear, intelligible, and authoritative commands that are heard and understood.

- 144dB SPL peak acoustic output
- Long range at 750+m
- High intelligibility with STI of 0.85 out of 1.0
- Lightweight at 15lbs
- Rugged composite construction
- Integrated record/play functionality
- Ergonomic controls
- Narrow acoustic beam of ±15 degrees
- Available with one or two transducers
- Color options of black, gray, red, and white
- Custom colors and treatments available

Note: Figure below not to scale

APPLICATIONS:

- Crowd Control
- Search & Rescue
- First Responders
- Law Enforcement
- Campus & Public Safety
- Emergency & Event Control
- Maritime Communications
- Border & Port Protection
- Bird Control
