

HyperSpike Mobile Application Privacy Policy/Terms and Conditions of Use

This app is operated on behalf of UnderSea Sensor Systems Inc., (“USSI”) a Delaware company with a location at 4868 E Park 30 Drive, Columbia City, IN 46725.

We created the HyperSpike Remote Control Application with your privacy in mind, so we do not collect personally identifiable information about you. In other words, we do not collect information such as your name, address, phone number, email address or precise geographic location.

The contents of this app may be used only on HyperSpike Branded Devices. Any other use of such service, including reproduction, modification, distribution, transmission, republication, or display of the contents of this app without the prior written consent of USSI is expressly forbidden.

USSI may make improvements and/or changes to any of the app content at any time. USSI expressly disclaims any responsibility or liability for any adverse consequences or damages resulting from this app.

The service is provided “AS IS” and USSI makes no warranties, express or implied, as to the merchantability, fitness for a particular use or purpose, title, non-infringement, or any other warranty, condition, guaranty, or representation, whether oral or in writing, or in electronic form, including but not limited to the accuracy or completeness of any information therein or provided by the service.

Your use of the service is entirely at your own risk. USSI will not be responsible to you or to any third parties for any direct or indirect, consequential, special, or punitive damages or losses you may incur in connection with the service, your use thereof or any of the data or other materials transmitted through or residing on our service, regardless of the type of claim or the nature of the cause of action, even if we have advised of the possibility of such damage or loss.

The HyperSpike Mobile Application is intended for use with HyperSpike Acoustic Devices. The application was developed to provide Acoustic Hailing Device customers with a modern user interface and features to remotely control and interface with their device(s). The HyperSpike Mobile Application will put all the features of a HyperSpike control panel into a single readily available device. Whether you are wired direction or connected via a blue tooth receiver, the HyperSpike Mobile Application is a tool that is intended to expand product capabilities and improve the user experience.
